

What is CSA?

CSA is a growing assembly of business, educational, and research organizations with a common interest in aeromedical sciences, health and safety, and related aerospace commerce who are joined in support of the goals and objectives of AsMA. CSA provides a unified voice for its members to AsMA and to the aerospace and aeromedical industries.

The AsMA Mission

Apply and advance scientific knowledge to promote and enhance the health, safety and performance of those involved in aerospace related activities.

A non-profit organization of physicians, physiologists, nurses, engineers, and other scientists dedicated to enhancing health, promoting safety, and improving the performance of individuals who work or travel in threatening environments on or beneath the surface of the Earth or sea, in the air, or in outer space.

OF THE
Aerospace Medical
Association

Advancing the Frontiers
of Aerospace Medicine

The Association

The Aerospace Medical Association (AsMA) is the largest, international, professional membership organization in the fields of aviation, space, and environmental medicine. AsMA provides a forum for many different disciplines to come together and share their expertise for the benefit of all people working and recreating in the sea, air and space. The association represents the discipline of Aerospace Medicine to professional, commercial and governmental organizations worldwide.

OBJECTIVES:

- Advance the frontiers of Aerospace Medicine
- Ensure the highest levels of safety and health in aviation and aerospace operations
- Establish and maintain cooperation between the medical, biological, engineering, and other sciences concerned with aviation, space, and environmental research and programs, as well as to promote the exchange of information on Aerospace Medicine to industry and the general public
- Recognize and reward outstanding achievements in the field

MEMBERSHIP:

- Over 2,000 active members
- Aerospace medicine specialists, flight nurses, physiologists, human factors physiologists and engineers, scientists, biomedical engineers and technicians, and allied health care specialists
- International members comprising nearly 70 nations
- Constituent and Affiliated Organizations from Military, Civilian, and International Communities

Benefits of Affiliation

Corporate & Sustaining Members of the Aerospace Medical Association

ADVOCACY

Partnerships to address commercial challenges in the dynamic aerospace industry

MARKETING

Value through preferred rates for advertising in our publications and exhibiting at our scientific meetings

EDUCATION

Opportunities to promote currency with cutting-edge advances in the aeromedical and related technical sciences

NETWORKING

Connections to esteemed aeromedical experts to anticipate business trends, facilitate problem-solving, and support business growth

RESEARCH

Credibility through research development and sponsorship to promote health and safety for those involved in air, sea, and space activities

RECRUITMENT

Access to our talented aeromedical professionals with unique skill sets to strengthen your organization

LEADERSHIP

Visibility through representation of commercial interests within AsMA and to the global aeromedical community
